### Safety?

#### Let's talk about it....

We understand that visitors have questions about what's going on in Portland; we have answers.

*Updated July 30, 2021 from Travel Portland:*

Portland — like many cities — is currently confronting issues related to social justice, livability and the COVID-19 pandemic. Amid it all, Portland is a safe place to visit. Read on for detailed answers surrounding safety, protests and visitor experience.

**Yes, Portland remains a safe city for visitors.** We recommend that visitors to Portland exercise the same caution, concern and common sense as when traveling to any metropolitan destination.

Given isolated incidents of violence at public demonstrations, Travel Portland recommends visitors avoid demonstration areas, which are typically removed from many businesses and attractions popular with visitors to our area. Visitors are unlikely to see signs of the protests that have been shown in national news media.

Portland's rate of violent crime remains lower than the average for U.S. cities of a similar size.

*Our doors are open, it's time to get together! And remember, everything is door-to-door!*
